

Konica Minolta bizhub 360i

Outstanding 36-ppm A3 MFP

The Konica Minolta bizhub 360i has claimed the BLI Winter 2021 Pick Award for Outstanding 36-ppm A3 MFP from Keypoint Intelligence thanks to its...

- Stellar uptime thanks to excellent reliability and easy maintenance
- First-class print functions and walk-up usage that modernize and simplify workflows
- Customizable and feature-rich apps and tools for users and administrators
- Fast scan speeds and first-print and -copy times keep workers productive

“The Konica Minolta bizhub 360i is a top-notch choice for small to mid-size workgroups,” said George Mikolay, Associate Director of A3 Hardware/Production. “It showed near-perfect reliability over 175,000 impressions, indicating it can be counted on to keep jobs moving and workers productive. Maximum uptime is enhanced even more by simple maintenance procedures for replacing toner and clearing misfeeds, an above average maximum paper capacity, and a sophisticated web user interface for device management, all of which results in minimal disruption to day-to-day workflows. Along with fast first-print and -copy times, duplex scan speeds stood out for their rapidity while compressed color scan file sizes were nice and small.

“The Konica Minolta bizhub 360i is easy to use, thanks in large part to its sizable, responsive control panel with slide-and-swipe navigation and a Card-style user interface that allows for quick access to desired settings,” Mikolay continued. “The walk-up menus are also highly customizable, and the ability to download high-usage apps from Konica Minolta’s MarketPlace at the control panel takes customization a step further. Keypoint Intelligence was also impressed by the new Personalize Follow-You Persona Service, which lets users personalize their MFP panel with the apps, tools, and tiles they use most often as well as access them from any MFP, anywhere. Another on-trend feature of the device is robust mobile capabilities and support, including standard NFC and support for the Konica Minolta bizhub Remote Panel app, which enables users to operate the control panel from a mobile device.”

About Keypoint Intelligence

For 60 years, clients in the digital imaging industry have relied on Keypoint Intelligence for independent hands-on testing, lab data, and extensive market research to drive their product and sales success. Keypoint Intelligence has been recognized as the industry's most trusted resource for unbiased information, analysis, and awards due to decades of analyst experience. Customers have harnessed this mission-critical knowledge for strategic decision-making, daily sales enablement, and operational excellence to improve business goals and increase bottom lines. With a central focus on clients, Keypoint Intelligence continues to evolve as the industry changes by expanding offerings and updating methods, while intimately understanding and serving manufacturers', channels', and their customers' transformation in the digital printing and imaging sector.

About BLI Office Hardware Pick Awards

Buyers Lab Picks stand alone in the industry and are hard-earned awards as they are based on rigorous testing, including an extensive durability assessment and evaluation of key attributes such as usability, image quality, and value. Each product that passes its lab test earns the Highly Recommended or Recommended Seal and a Certificate of Reliability, with the best performers qualifying as Pick contenders.
