

Konica Minolta bizhub C650i

Outstanding 65-ppm A3 Color MFP

The Konica Minolta bizhub C650i has claimed the BLI Winter 2021 Pick Award for Outstanding 65-ppm A3 Color MFP from Keypoint Intelligence thanks to its...

- Tremendous uptime because of near-perfect reliability, easy maintenance
- First-class print functions, walk-up usage that streamline and simplify workflows
- High-usage apps and onboard tools to boost productivity
- Above average scan preview capabilities, double feed detection, and fast scan speeds

“The Konica Minolta bizhub C650i is a marvelous choice for mid-size to large workgroups,” said George Mikolay, Associate Director of A3 Hardware/Production. “The fantastic reliability, above average maximum paper capacity, and sophisticated administration tools and services give businesses the peace of mind that this device can withstand any task. In addition, simple maintenance procedures for replacing toner and clearing misfeeds as well as standout ease of use from the control panel and print driver boost efficiency in numerous ways. A fully tiltable control panel with slide-and-swipe navigation and a Card-style user interface help to expedite jobs, while Konica Minolta’s new Personalize Follow-You Persona Service lets users personalize their MFP panel with the apps, tools, and tiles they use most often and then access them from any MFP, anywhere.

“As for print functions from the desktop, an entire tab can be customized to meet users’ needs and presets, and detailed comments relating to preset functions can be added and saved from every tab,” Mikolay continued. “Another first-rate customization capability is the ability to download high-use apps from Konica Minolta’s MarketPlace at the control panel. From an IT administration perspective, the easy-to-navigate web user interface supports bookmarking commonly used areas for quick access. Productivity and convenient access get an additional boost thanks to fast first-print, job stream, and copy speeds as well as flexible mobile support including standard NFC, while support for the bizhub Remote Panel allows users to operate the control panel from their mobile device.”

About Keypoint Intelligence

For 60 years, clients in the digital imaging industry have relied on Keypoint Intelligence for independent hands-on testing, lab data, and extensive market research to drive their product and sales success. Keypoint Intelligence has been recognized as the industry's most trusted resource for unbiased information, analysis, and awards due to decades of analyst experience. Customers have harnessed this mission-critical knowledge for strategic decision-making, daily sales enablement, and operational excellence to improve business goals and increase bottom lines. With a central focus on clients, Keypoint Intelligence continues to evolve as the industry changes by expanding offerings and updating methods, while intimately understanding and serving manufacturers', channels', and their customers' transformation in the digital printing and imaging sector.

About BLI Office Hardware Pick Awards

Buyers Lab Picks stand alone in the industry and are hard-earned awards as they are based on rigorous testing, including an extensive durability assessment and evaluation of key attributes such as usability, image quality, and value. Each product that passes its lab test earns the Highly Recommended or Recommended Seal and a Certificate of Reliability, with the best performers qualifying as Pick contenders.
